                B A T A L I A

    The Right Brothers would like to welcome you to our first
    program. The concept behind the game is like many others
    you have probably seen and played.......KILL!!!!

    But BATALIA adds a twist. You are pitted against another
    live victim who is sitting next to you on the keyboard.
    So if you are behind in the HIT-POINT department you can
    always reach out and physically hurt your opponent, this
    helps your deep seaded sub-concious, NOT YOUR SCORE!! I
    repeat: NOT YOUR SCORE!!

    There is no need to inform you of the keys to be used; they
    are available for viewing in the program itself.

            Origins of BATALIA

    The Right Brothers got there start in late January of this
    year (1986) in a computer class at Spanish River High School
    located in Boca Raton Fl. BATALIA is a project that was due
    for grading in class, and I'd like to inform you that it re-
    ceived an A, I repeat an A!

            Recognition

    The Right Brothers are not asking for a $5.00 contribution
    to help pay for all the looooong hours we put in on it, but
    a simple message saying how you feel about it. Ideas for future
    projects would also be nice. Right now the program that is being
    looked at is an Ice Hockey program, there seems to be a lack of
    good Public Domain sports programs, Yes, we'd like to add another
    bad Public Domain sports program.

            Location

    Leave a message for KENT FRECHETTE or BRAD BAER on:

        1) Node IV in Boca Raton
        2) Node V (The Program Exchange) also in Boca Raton

Again, the Right Brothers wish to thank you for making our first program a success. See ya on the next program!!
